

Facebook for Low Vision

Selecting News Feed Options

Facebook allows you to adjust your **News Feed** to better suit your preferences. You can choose people and pages that you want to see more of. You can also unfollow and snooze people you don't want to see in your **News Feed**.

1. Select the **Profile** button in the top right corner of the homepage.
2. Use the **Tab** key or mouse pointer to move down to **Settings and Privacy** and then press **Enter**.
3. In the drop-down menu, select **Feed** and press Enter to open this window.
4. These are your options:
 - **Favorites:** Select people and pages you want to prioritize. Their posts will be shown higher in your feed, and you'll see their newest posts first.

- **Snooze:** Temporarily stop seeing posts from people, groups, or pages that you choose.
- **Unfollow:** Permanently stop seeing certain posts.
- **Reconnect:** Follow a person, page, or group that you previously unfollowed.
