How to Report Issues to Facebook

The best way to report abusive content or spam on Facebook is by using the **Report** link near the content itself.

To Report a Post

1. Select the **More** button (three horizontal dots) in the top right of the post you want to report.
2. Press the **spacebar** to open the menu.
3. Press the **down arrow** until you reach **Report Post**. Then press the **spacebar** to select it.
4. To give feedback, **down arrow** to the option that best describes how this post goes against **Facebook's Community Standards**.
5. Tab to the **Next** button, then press the **spacebar** to select it.

Tip: Depending on your feedback, you may then be able to submit a report to Meta (Facebook). For some types of content, Facebook doesn't ask you to submit a report, but they use your feedback to help their systems learn.

6. Tab to the **Done** button and press the **spacebar** to select it.
