

Facebook for Low Vision

How to Report Issues to Facebook

The best way to report abusive content or spam on Facebook is by using the **Report** link near the content itself.

To Report a Post

1. Select the **More** button (three horizontal dots) in the top right of the post you want to report.
2. Select **Report post**.
3. To give feedback, select the option that best describes how this post goes against **Facebook's Community Standards**. Then select **Next**.

Tip: Depending on your feedback, you may then be able to submit a report to Meta (Facebook). For some types of content, Facebook doesn't ask you to submit a report, but they use your feedback to help their systems learn.

4. Select **Done**.
