

## Facebook for Low Vision

# Reacting to Posts

Did you know that there are different ways to react to a friend's Facebook post?

In addition to commenting, Facebook has some tools and features that help make your reactions more fun. **Try it out!**

**Tip:** This series is designed for people with low vision. If you use a screen reader, be sure to check out Hadley's screen reading version of this series.

### Reacting to a Post

1. Log in to your Facebook account to access your homepage.
2. Go to a friend's post on your timeline.
3. Below the post are three buttons. From left to right, they are **Like**, **Comment**, and **Share**.
4. Hover your mouse pointer over the **Like** button. Seven reaction icons pop up: **Like**, **Love**, **Care**, **HaHa**, **Wow**, **Sad**, and **Angry**.

**Tip:** When you select one of these icons, it becomes visible to anyone who sees the post and lets Facebook know that you like these types of posts. Facebook then starts to send you more posts like the one you liked.

5. Select the **More** button (three horizontal dots) at the top right of the post. **Arrow down** through the different options:

- **Save post**
- **Turn off notifications for this post**
- **Embed**
- **Report post**

**Tip:** If you think a post doesn't follow Facebook's community standards, you can report it. For more information about reporting a post, contact a Hadley learning expert.

6. Press the **ESC** key or select the **More** button again to close this window.

7. Select the **Comment** button below the post. This places your cursor in the **Comment** edit field.

8. Type a comment and then press the **Enter** key to post it.

9. Other reaction options can be found to the right of the **Comment** edit field. Explore them from left to right:

- **Comment with an Avatar Sticker**
- **Insert an Emoji**
- **Attach a Photo or Video**
- **Comment with a GIF**
- **Comment with a Sticker**

## Sharing a Post

10. Select **Share** below your friend's post. Sharing options include:

- **Share Now (Friends)**
- **Share to Feed**
- **Share to Your Story (Friends)**
- **Send in Messenger**
- **Share to a Page**
- **Share to a Group**
- **Share on a Friend's Profile**

Now you can react to other people's posts in fun ways. Try another workshop to learn about Facebook groups.
