

Facebook for Low Vision Groups

A great feature of Facebook is connecting with others through Groups.

Joining a Facebook group allows you to communicate about shared interests with other people. **Try it out!**

Tip: This series is designed for people with low vision. If you use a screen reader, be sure to check out Hadley's screen reading version of this series.

Joining a Group

1. Log in to your Facebook account to access your homepage.
2. Select **Groups** from the menu in the left pane.
3. In the search bar at the top, type **Hadley Tech It Out**. Then press **Enter**.
4. The search results appear with **Tech It Out** at the top of the list. Select the **Join** button on the right.

Tip: Once you select the Join button, it becomes a Visit button.

5. To go to the group page, select the **Visit** button or the group name.

Tip: If you don't have the option to join a group, the group administrator has likely limited access to certain people. For example, a family reunion group would just be open to family members and not publicly available.

Searching for a Topic in a Group

6. Scroll down below the group name and use your mouse pointer to select the **Search** button (looks like a magnifying glass).
7. In the **Search** edit field, type **Digital Assistants** and press **Enter**. Search results show multiple posts on this topic.

Requesting Notifications about a Group Topic

8. Scroll down the group page and find a post topic that interests you. Select the **More** button (three horizontal dots) at the top right of the post.
9. Select **Turn on notifications for this post** from the pop-up menu. Now, whenever someone comments about this post, you will get a notification at the top right of your News Feed.

Leaving a Group

10. Select the **Home** button at the top of the page to return to your homepage.
11. Select **Groups** from the options in the left pane.
12. Scroll down toward the bottom of the left pane to find the heading, **Groups you've joined**.
13. Select the group you want to leave. You are now on the group page.
14. Select the **Joined** button to the right of the group name.
15. Use your **down arrow** key or mouse pointer to select **Leave Group**.
16. Select the **Leave Group** button in the **Leave Group?** dialog box.
17. Select the **Home** button to return to your homepage.

Now you can expand your Facebook experience by joining groups. Try another workshop to learn more about using Facebook.
