

Amazon Echo

Flash Briefings

With the Amazon Echo, you can get a quick news summary from your favorite news sources whenever you want. That's Alexa's Flash Briefing.

Getting Started

1. Open the Amazon Alexa app on your smartphone, tablet, or on the web at **alexa.amazon.com**.
2. Select **More**.
3. Select **Settings**.
4. Select **News**.
5. Select **Flash Briefing**.
6. Open **Edit** to choose your favorite news sources.

What if you don't see your favorite news sources?

7. Open **Add Content**. Here you'll find thousands of news sources. You can sort the listings or use the search box to look for the ones you want.

Getting Your Flash Briefing

After you've selected your news sources, ask Alexa for your Flash Briefing. You'll hear a brief news summary from each of the sources you chose.

Just say, "Alexa, play my Flash Briefing."
