

Apple Watch and TV

Apple TV

Zoom Magnification Basics

The Zoom feature lets you magnify anything on your Apple TV screen.

Whether or not you've watched or listened to the video presentation, you can use this list of settings to better use your Apple TV. **Give it a try!**

1. Flick to your Settings app and press to open it.
2. Flick to the General Settings app and press to open it.
3. Flick down to your Accessibility button and press to open it.
4. Flick down until you find Zoom. Press the Zoom button to open your Zoom settings.

5. Press the next Zoom button to turn on Zoom. Your screen should be instantly magnified.
6. To return to your home screen, press the Menu button three times. Everything should remain magnified.
7. To turn Zoom magnification off and on at any time, press your touch surface quickly three times.
8. To find and set default text size:
 - a. To increase your magnification level, two-finger double-tap and hold down on the second tap.
 - b. To enlarge the text, push your fingers up and hold down on your touch surface. Notice how your text enlarges.
 - c. Pull down with your two fingers to decrease your magnification.
 - d. To create a default, or regular, magnification, move your fingers up and down until you find the text size that you like. Then lift your fingers from your touch surface, and it will be your default magnification.

9. **Zoom Drag:** This feature lets you view a place on your screen without flicking to it.
 - a. To turn on Zoom Drag, two-finger tap your touch surface three times. Then drag your finger around the screen.
 - b. To move between items on your screen, touch the side of your touch surface in the direction you wish to move.

Tip: The Zoom drag gesture is really useful if you want to have text on your screen that you need to drag to read it.

10. **Zoom Speak:** Activate this feature by pressing your Siri button twice. This feature speaks the text of your active item and can reduce eye fatigue.

The Apple TV's Zoom features can help you navigate your TV more quickly and easily. Now that you've explored the Zoom features, how about trying another workshop to find other great ways to maximize your Apple TV experience?
