

iPhone/iPad VoiceOver Control Center

The Control Center lets you quickly access your most frequently used apps and settings.

You can easily access many different features using your Control Center. **Try it out!**

Tip: The following instructions are for the iPhone. However, they are very similar whether you're using an iPhone or an iPad.

Open the Control Center

On a device without a Home button:

1. One-finger drag down from the top of your screen until you feel the **first vibration**.
2. Lift your finger to get to the **Control Center**. The focus is on the **Airplane Mode** button.

On a device with a Home button:

3. Touch your **status bar** and then do a **three-finger swipe up** from the bottom of your screen to get to the **Control Center**. The focus is on the **Airplane Mode** button.

Explore the Control Center

4. **VoiceOver Hints** tells you how to interact with each of the Control Center items.
5. Swipe up or down to get to even more settings.
6. Single-finger double tap to toggle a setting on or off.
7. Swipe right and left to move through items in the **Control Center**, such as:
 - Airplane mode
 - Cellular data
 - WiFi and Bluetooth
 - Lock rotation button
 - Screen mirroring
 - Do not disturb
 - Music player interface
 - Brightness and volume controls
8. The **Control Center** also lets you swipe right and left to quickly open apps, like:
 - Flashlight
 - Timer
 - Calculator
 - Camera

Tip: Contact a Hadley learning expert to find out how to add and remove Control Center items.

Your Control Center gives you quick access to some of your most frequently used settings and apps. Other workshops in this series explore more ways to use your device. Try them out!
