# Home Phones: Products and Services

## Products

### [Panasonic Accessible Phones](#)

Panasonic's line of accessible cordless phones includes high-contrast buttons, enlarged displays, a talking keypad and phonebook, and more. Many are available from:

[LS&S Products](#)—Phone: (800) 468-4789

[MaxiAids](#)—Phone (800) 522-6294

### [Clarity Low-Vision Phones](#)

**Phone: (800) 426-3738**

Clarity offers phones with several low-vision and sound-enhancing features, like extra-large buttons with braille, large-print screens, talking caller-ID, and more.

### [Future Call Voice Dialer Phone](#)

**Phone: Network Solutions Online Store (888) 934-2255**

This large-button phone lets you make outgoing calls and answer incoming calls using voice prompts alone—and includes several more accessibility features.

## Services

### iCanConnect

**Phone: (800) 825-4595**

This national program provides telephone equipment and training at no cost to eligible individuals with both hearing and vision loss. Contact information for each state is available online at [www.icanconnect.org](http://www.icanconnect.org), or you can call the toll-free number for more details and assistance.

### **Free 411**

**Phone: (800) 373-3411 or 800-FREE411**

Calling this number lets you connect to a free directory assistance service that's supported by advertising.
