

Amazon Fire TV Stick VoiceView Tutorial

The online tutorial for your Fire TV Stick guides you through information about how to use your Fire TV. Instructions on each screen will automatically repeat if you take no action. The tutorial is self-guided, so use the interactive Table of Contents to go to the relevant sections.

1. The first screen of the tutorial asks you to confirm that you intended to enable VoiceView. Press the **Play/Pause** button on your remote to confirm.
Tip: The Play/Pause button is the middle button in the bottom row of three small buttons.
2. The second screen asks if you are new to VoiceView and gives you the option to **Continue** or **Skip** the tutorial.
 - **Continue:** Press the **Play/Pause** button on your remote
 - **Skip:** press the **Fast Forward** button on your remote.**Tip: The Fast Forward button is the right button in the bottom row of three small buttons.**
3. The third screen describes the remote control and the location of each button. Press **Select** to continue to the next section of the tutorial.

Tip: The Select button is the large round button inside a ring of four buttons near the top of your remote.

4. The fourth screen is a special mode that allows you to explore the remote. You can press any button on the remote to hear what button it is with a description of what it does.
5. When you are done exploring your remote, press and hold **Select** to continue to the next screen of the tutorial.
6. The fifth screen contains VoiceView tips. Use the **Up** and **Down** buttons to move between these items.

Tip: The Up button is the button above the Select button. The Down button is below the Select button.

7. When done, press and hold **Select** to exit the tutorial.
