Add or Change Your Apple Watch Face

VoiceOver makes it easy to perform various tasks on your Apple Watch. Follow these steps to add or change your watch face.

Note: The following steps are for Apple Watch models running version watchOS 10 or later.

Add a New Watch Face

1. Single-finger triple-tap the watch screen.
2. Turn the **Digital Crown** dial toward yourself to get to the **Add New Face** option.
3. Single-finger double-tap to open the **Add New Face** screen.
4. Turn the **Digital Crown** to browse available faces.
5. Single-finger double-tap to select the desired face.

Tip: To hear a description of a watch face image, select a face and turn the Digital Crown past the Add New Face button.

6. Select the **Add New Face** button to choose the face.
7. Press the **Digital Crown** to leave the menu.

Change a Watch Face

8. Single-finger triple-tap the watch screen.
9. Swipe down to choose **Edit**, then double-tap to select.
10. Swipe left or right with two fingers to browse the customizable features.
11. Turn the **Digital Crown** to customize the selected feature.
12. When finished, press the **Digital Crown**, then double-tap the face to save your changes.

Add or Change a Watch Face Using the Apple Watch App

13. Open the **Apple Watch** app on your iPhone/iPad.
14. Swipe through the watch faces in your **My Faces** collection and select the face you want to use.
15. To add a watch face, select **Face Gallery** at the bottom center of your screen.
16. Scroll through the available options and select new watch faces to add to your collection in **My Faces**.
