

Apple Watch

Set Accessibility Shortcuts

When you run VoiceOver on your Apple Watch, you can set the Digital Crown to turn it and other accessibility features on or off with a triple-click. **Try it out!**

Note: The following steps are for Apple Watch models running version watchOS 10 or later.

Set the Accessibility Shortcut

1. Make sure **VoiceOver** is turned on.
2. Open the **Settings** app on your **Apple Watch**.
3. Scroll down and select **Accessibility**.

Tip: You can also turn the Digital Crown to go to Accessibility settings, then single-finger double-tap to select.

4. Scroll down and select **Accessibility Shortcut**.

Tip: Again, you can turn the Digital Crown to go to the Accessibility shortcut feature, then single-finger double-tap to open it.

5. Choose **VoiceOver** from the shortcuts list.
6. Single-finger double-tap to turn **VoiceOver** on or off. A check mark means that it is on.

Set Shortcuts using the Apple Watch App

7. Open the **Apple Watch** app on your iPhone/iPad.
8. Select **My Watch** at the bottom right corner of your screen.
9. Scroll to select **Accessibility**, then **Accessibility Shortcut** to choose an option.

Use the Accessibility Shortcut

10. Press the **Digital Crown** quickly three times.
