

Seeing AI: Android Low Vision

Sharing a Document and Asking AI a Question

Sharing a Document

1. Select the **Share Text** button at the bottom of the screen. It looks like a right arrow inside a square.
2. Select your document format from the available options: **Share Image**, **Share Text**, or **Share HTML**.
3. Share the document using your desired application, such as **Messages**, **Gmail**, **Google Drive**, or **Photos Upload**.

Ask AI a Question About the Document

4. Select the **Question Mark** button at the bottom of the screen.
5. Type your question. If you prefer to dictate your question, select the **Microphone** button at the far right of the **Tool** ribbon.

Tip: You can ask AI for more details, such as a summary of the document, font size, and style.

6. Select the **Up Arrow** button to send your question to Seeing AI. The responses will be displayed as text and read aloud.
7. When you're done, select the **Back Arrow** in the top left corner two times to return to the home screen.

Scanning and Reading More Pages

8. After scanning and reading the first page, select the **Add Pages** button at the top of the screen. It is located to the right of the Page 1 of 1 title.

Tip: The button looks like a lined page with a plus sign in the bottom right corner of the page.

9. Repeat scanning and reading the next page.
